terms "certain reinsured contracts" and "certain reinsured liabilities?"

MS. BONACCI: Objection to form.

- A. Me? No, I don't know exactly what that means, but I would say in the purchase of Reliance there must have been something in the agreement between Travelers and Reliance.
- Q. So as you sit here today, do you have any knowledge of whether Travelers had any reinsurance obligations with respect to the four bonds that we marked as DASNY Exhibits 2 through 5?
 - A. No, I don't know.

MS. SMITH: I'm sorry, no, I

don't know or --

THE WITNESS: No, I don't know.

MS. SMITH: Thank you.

- Q. Mr. Scarpellino, at any time in your capacity as a bond claims manager with Travelers, have you become aware of allegations of defects in terrazzo flooring at Baruch College?
 - A. Yeah, I became aware of that.

J. Scarpel	line
------------	------

- Q. Do you recall when Travelers first learned of those allegations?
- A. I believe the first time I've heard about the terrazzo, that there was a problem with the terrazzo, was after my second meeting with Doug Van Vleck, which would have been I believe somewhere around the late fall, early winter of 2003.
- Q. And you said that that was your second meeting with Mr. Van Vleck?
 - A. Yes.
- Q. When was your first meeting with Mr. Van Vleck?
- A. I believe sometime in the spring of 2003.
- Q. Focusing your attention on the first meeting, who else besides you and Mr. Van Vleck was present at that meeting?
- A. There was Nick Seminara from Travelers.
 - Q. Anyone else?
- A. Brian Fern, F E R N, from
 Travelers. I believe Steve Boiko.

That's all I recall at this

Who is Nick Seminara? 3 Q. 4 Nick Seminara was the -- at the Α. 5 time I believe he was the vice president of contract surety claims in Hartford. 6 7 Is Mr. Nick Seminara still Q. 8 employed by Travelers? 9 Α. Yes. Do you know his current title? 10 Q . 11 Α. No. 12 Q. Is he still working in the 13 surety bond area? 14 Α. No. 15 Do you know what area he is 16 working in? Travelers?

- A. Yes.
- Q. And is he still an in-house engineer?
 - A. Yes.
- Q. What was the purpose of the meeting you had with Mr. Van Vleck in the spring of 2003?
- A. We had a meeting in order to determine if we were agreeable to collect some contract balances and to -- for contract fifteen and sixteen, for Trataros, and also to see if we could attempt to make a deal to -- on the delay portion of the claims. I believe we made a recommendation that we would give DASNY a hold harmless, they'd pay us the money for the delay claims, and we in turn will turn around and take care of the subs.
- Q. Was there any mention of terrazzo flooring at that meeting?
- A. No, the only mention at that meeting was we had another project with

212-267-6868 516-608-2400

36 1 J. Scarpellino 2 DASNY which was the Queens College 3 Powdermaker Hall project and he said they 4 were behind on that project. He said if 5 we escalate, he'll talk again about 6 getting this thing resolved, the delay 7 claim and our contract balances. 8 Q. Was Trataros working at 9 Powdermaker Hall? He was the contractor on that 10 Α. 11 project. 12 Q. And Travelers became involved in 13 that project? 14 Travelers was involved in that 15 project. 16 And was Travelers involved in connection with bonds that had been issued 17 on behalf of Trataros? 18 19 For Powdermaker Hall? Α. 20 Q. Yes. I'm not sure if it was a 21 Α. 22 Reliance bond or a Travelers bond, but 23 Travelers was the responsible bonding 24 party for that contract. 25 Q. Just so I'm clear, I know you

said Travelers was the responsible bonding party, but was the obligor on those bonds Trataros? Again, I'm talking about Powdermaker.

A. Yes.

Q. The second meeting that you had with Mr. Van Vleck, who was in attendance at that meeting?

A. I believe it was just Mr. Seminara and myself and Mr. Van Vleck and Mr. Boiko.

Q. And to your recollection, Mr. Fern was not at that meeting?

A. No.

Q. What was the purpose of that meeting?

A. Well, I believe we had fairly well got Queens College either behind us or on the right track and we were trying to get additional funds for the Baruch project and that's when he told us that, you know, the offer we had made, as far as a hold harmless agreement for the delay claims, contract balances, and so on, to

VERITEXT REPORTING COMPANY

J. Scarpellino

the best of my recollection he made us a lowball offer at that point of \$8 million and then he informed us that there was a problem with the terrazzo.

- Q. And you said that meeting occurred sometime in the fall or early winter of 2003?
 - A. To the best of my recollection.
- Q. Was that the first time that anyone had advised you that there was a potential issue with respect to the terrazzo flooring at Baruch College?

MS. BONACCI: Objection to form.

MR. FROESSEL: I'm sorry, what's the objection?

MS. BONACCI: Anyone. You mean anyone from DASNY or anyone in total?

- Q. Was that meeting in the late fall or early winter of 2003 with Mr. Van Vleck the first time that you learned of allegations of defects in the terrazzo flooring at Baruch College?
- A. It was the first time we heard of a major defect. Prior to that, in

_

handling the Crocetti claim, we knew that they were doing some punch list and some corrective work on their flooring.

- Q. At that second meeting with Mr. Van Vleck, did either you or Mr. Seminara respond in any way to the allegations of defects in the terrazzo flooring?
- A. I believe we just requested information as to what was going on out there.
- Q. Do you recall whether either you or Mr. Seminara made any statements to DASNY about any cleaning materials that were used on the floor at Baruch College?
- A. I specifically don't recall that.
- Q. At the time of your first meeting with Mr. Van Vleck in the spring of 2003 was Trataros still in business?
- A. I believe Trataros closed its doors sometime in the spring of '03.
- Q. How did Travelers become aware that Trataros was ceasing its business?
 - A. I was on the Trataros case since

212-267-6868 516-608-2400

J. Scarpellino

- Q. What at that time was Travelers doing to investigate any potential problem with the terrazzo that was installed at Baruch College?
- A. We were trying to determine why the terrazzo at certain points was cracking, whether or not it was the concrete substrate, whether or not it was the underlayment that was underneath the terrazzo, whether or not it was just a bad terrazzo job. We were just trying to get some information as to what the problem was.
- Q. What did you do to try to get that information?
- A. I believe we were just trying to get some information, whatever we could, from Trataros at that time or go through Trataros' records at that time I should say because I don't know if Trataros was around at this time.
- Q. Did there come a time when Travelers did anything more than just reviewing Trataros' records and talking to

212-267-6868

J. Scarpellino

MS. BONACCI: Is that true?

Because your counterclaim asserted \$20 million and there have been representations to the parties at this table that it includes work that does not include terrazzo.

MR. FROESSEL: I will limit my questioning on these affirmative defenses to anything relating to terrazzo.

Q. With respect to DASNY's counterclaim concerning terrazzo defects, do you know the factual basis of Travelers' defense that DASNY lacks standing to prosecute the counterclaim against Travelers?

MS. BONACCI: Objection.

To the extent you know. You can answer to the extent you know.

A. As far as the performance bond,

DASNY never terminated Trataros, never put

the surety on notice that there was a

problem with the project, the project was

complete, the project had been in use for

two, three years after completion, DASNY again never put Travelers on notice of any problem, anything wrong with this project or with Trataros' performance on this job. We never had any documentation or any letters at all from DASNY regarding that.

- Q. Turning the page to page eight, I'm looking specifically at the thirteenth affirmative defense.
 - What number, I'm sorry?
- The thirteenth affirmative Q. defense.

With respect to the terrazzo flooring only, do you know the factual basis of the defense that the counterclaim is barred, in whole or in part, by DASNY's failure to provide Trataros with non-defective plans, drawings, and/or technical specifications for the project?

MS. BONACCI: Objection.

To the extent you know.

- Again, it's part of the lawsuit and I'll leave that up to counsel.
 - Q. Going down the page to the

121 1 J. Scarpellino 2 At this point I'll turn it over 3 to any of the counsel that may have 4 questions. 5 EXAMINATION BY 6 MS. RAICUS: 7 I represent one of the myriad of insurance companies as the fourth-party 8 9 defendants. To which performance bond are 10 11 you referring when you testified previously that DASNY was obligated to 12 13 notify Travelers and did not do so? 14 We're talking about the 15 terrazzo, so the terrazzo was contract 16 sixteen. 17 Ο. Contract sixteen? 18 Who were the parties to that 19 contract? 20 Α. Trataros was the principal. 21 DASNY was the obligee. 22 Do you specifically recall --23 and again, you can refer to any of the 24

documents if you want -- do you specifically recall the time period within

212-267-6868

J. Scarpellino

which notice was required to Travelers from DASNY?

- A. DASNY never notified Travelers, never defaulted Trataros on the project, and that's part of the way the bond is written, there's a notice provision in there.
- Q. I'd like to refer to the exhibit that contains the letter from TDX that refers to the terrazzo flooring. I believe that's Exhibit 13. I'm referring to the August 28, 2003 letter from TDX to Trataros.

Do you know what the source of TDX's information that's contained in this letter is?

A. I had no idea -- like I said prior, Crocetti had made a payment bond claim. We were investigating the payment bond claim. We were informed that there was some punch list, some patching that he was doing on the terrazzo floor in different areas. We were informed by Crocetti's attorney that basically the

J. Scarpellino

work was done in accordance with the plans and specs and he wanted payment. I indicated, until we get the okay that that work was completed, you know, that we would not make any payment. But we had no idea what was behind this letter.

- Q. Now, at some point during the course of this Baruch project, would different aspects of the project be signed off on as complete, such as plumbing, such as electric, such as ceiling?
- A. That's what's normally done on a project; correct?
 - Q. Was it done on this project?
- A. Travelers did not follow this project. This was a project that Trataros was completing. We left them alone. They went on their own to do their thing. I was involved in handling the other sixteen projects. This was a project that at the end of the day they were going to be making money on if they ever got paid. So we didn't follow it. We never had any notice from DASNY, any notice from TDX,

J. Scarpellino

any notice from anyone that there was a problem or that they were going to terminate Trataros, default Trataros, whatever.

- Q. Now, is this letter from TDX dated August 28, 2003 the first notice that somehow came into the possession of Travelers regarding alleged problems with the terrazzo floor?
- A. Again, it was our first notice that there was a problem with the floor, but we had no idea of the extent of the problem or what the situation was. That's why I wrote the letter to Mr. Wirth indicating what's going on, I received this letter, you know, you're telling me one thing, these guys are telling me that the, you know, the floors have to be replaced.
- Q. Now, whatever completion of this project and before litigation, did you ever come to learn that certain aspects of the project were signed off on?
 - A. The project was complete. From

VERITEXT REPORTING COMPANY

212-267-6868

J. Scarpelline	J		S	C	a	r	р	e	1	1	i	n	c

the first floor to the fourteenth floor were signed off on in September of '01 and the bottom three sections, the basement and the two subbasements, the lower three levels were signed off on I believe the end of January or February, '02.

- Q. And when you say, "signed off on," are you referring to a physical document?
- A. The project was complete, the certificate of occupancy for the entire building, the building was in use for classes beginning on September 1 except for the lower three floors. After January, February, '02, they had use and occupancy of the entire building.
- Q. Do you know where such documents would be located, the certificate of occupancy, et cetera?
- A. I'm sure they're in DASNY's records.
- Q. Now, again looking at this letter dated August 28, 2003, in reviewing this document, can you tell me where the

J. Scarpellino

alleged terrazzo floor problems were located, meaning were they located on the lower three levels or floors one through fourteen or both or something else?

MS. BONACCI: Objection.

Go ahead.

A. The letter says what the letter says. I mean, I got the letter and it just indicates that there's flooring deficiencies, unsafe conditions, and so on. And then, when we had our second meeting with Van Vleck, that's when he indicated that -- and he made us that lowball offer and indicated that there was a problem with the floor that we started to get more information on it.

Apparently, you know -- that's it, that's when we started getting more information on it, after that meeting.

Q. Is Mr. Van Vleck associated with DASNY?

A. He was the head of construction of DASNY. I'm not sure of his exact title, but he was the top man, I believe.

J. Scarpellino

- Q. Did Mr. Van Vleck ever tell you whether or not there were any Department of Building inspections of the flooring?
- A. No, he just indicated -- to the best of my recollection, the only thing he indicated was that there was a problem with the terrazzo flooring and he wasn't -- that basically they weren't going to pay the contract balances and delay claims and so on and they gave us that lowball offer.
- Q. Did you keep minutes of either of the meetings that you had with Mr. Van Vleck?
 - A. Not to my knowledge.
- Q. To your knowledge, did Mr. Van Vleck ever report the alleged terrazzo floor problems to the New York City Department of Buildings?
 - A. I have no idea.
- Q. To your knowledge, were any violations issued by the New York City Department of Buildings with respect to the terrazzo flooring?
